psdcitywide

Streamline operations. Improve service delivery. Empower your team.

Partner with us to Deliver Better Services to Your Community.

PSD Citywide gives your local government a platform you can grow with—strategically. Use it across most departments as a one-stop shop for managing assets, maintenance, permits, and budgets. Our fully integrated platform breaks down silos, improves collaboration and communication across teams, and helps your organization work smarter.

Whether you're starting small or scaling up, PSD Citywide is designed to evolve with your municipality's needs.

With PSD Citywide, you can:

- Connect departments and centralize data
- Streamline workflows for efficiency
- Make better, data-driven decisions for your community

The Challenges City Managers Face

- Aging infrastructure & rising maintenance costs
- Slow, paper-based permitting & licensing
- Siloed departments & disconnected workflows
- Limited visibility into budgets & assets
- Higher resident expectations for accountability

Key Features of Citywide Software

- **Fully Integrated Platform:** Citywide offers integration between asset management, maintenance, GIS and more, enabling real-time data updates and oversight across departments.
- **User-Friendly Interface:** The software is designed to meet best practice design standards, featuring intuitive navigation and simple graphics for ease of use.
- **Advanced Reporting and Analytics:** Citywide provides built-in customizable reports and data export options, empowering City Managers with insights for informed decision-making.
- **Automated Workflows and Notifications:** The platform supports automated workflows for permit approvals, inspections, and service requests, with configurable notifications to keep staff and citizens updated throughout the process.
- **Secure, Cloud-Based Hosting:** PSD Citywide manages all hosting, updates, and security, ensuring reliable access, secure backup, and full data ownership and portability.

What Our Clients Say

> "PSD Citywide offers a unique solution and value proposition in the marketplace... We felt supported through the process and are pleased with the high-quality plans and software that we are now using to make decisions and improvements."
