

Work Faster. Work Smarter. Manage Everything.

Municipal software and advisory services made for forward-looking communities just like yours.

Improve the way your community is built and managed. Become a data-empowered organization with the only all-in-one platform that helps communities thrive. From asset, maintenance and GIS, to budgeting, permitting, planning and licensing solutions, rest easy knowing you can manage it all from one integrated, secured and scalable location, called the Citywide Software Platform. Our Implementation and Advisory teams will be there for you every step of the way – before, during and after implementation. With PSD Citywide you get more than just leading software, you get a team dedicated to your ongoing success.

Citywide Software Platform

Innovative software that moves communities forward.

citywide ASSETS

Create your own data registry.

Develop strategies to increase the life of your municipal assets. Better plan and prioritize resources, easily forecast lifecycle events, future costs, and make risk calculations.

- Create reports and asset profiles for advanced data analysis and planning.
- Collect data, upload images, update attributes and asset conditions on-the-go with Citywide Asset Collector on the Citywide Mobile app.

citywide GIS

Do more with your maps.

Visualize everything - assets, work orders, service requests and more online or via a mobile app.

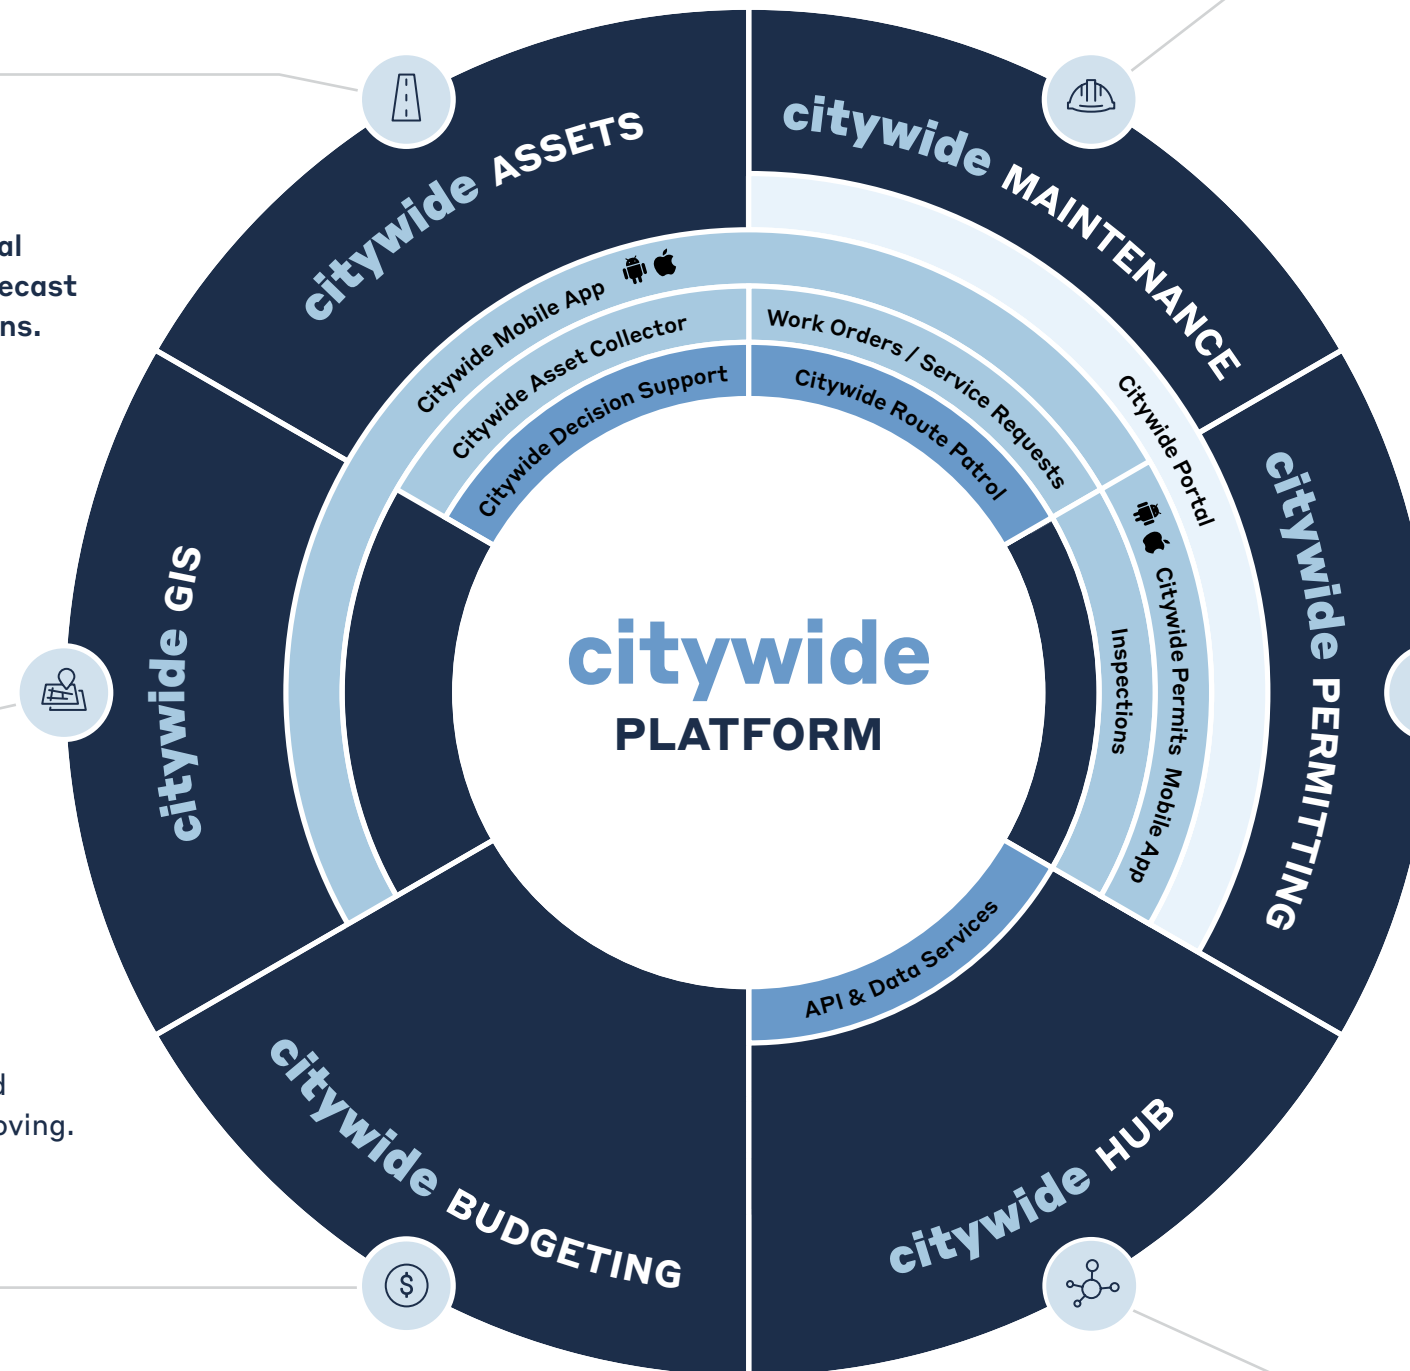

- Create custom map views with unlimited filters and layers.
- Stay connected with your community. Share tailored map views to show them how your municipality is moving.

citywide BUDGETING

Take control of your budgeting activities.

Make financial decisions that align with your current and future goals.

- Easily create operating, salary and capital budgets to help you stay on track.
- Avoid unwanted surprises. Create scenario analysis, variance reports, budget reports and more.

citywide MAINTENANCE

Simplify your work assignments.

Accurately prioritize, schedule and track all maintenance activities. Set-up preventive maintenance alerts to save time, money and increase asset life.

- Manage service requests, work orders and complete inspections for facilities, trails, sidewalks and more with the Citywide Mobile app.
- Increase efficiency and track compliance on your routine and seasonal patrols with Citywide Route Patrol.

citywide PERMITTING

Deliver a better citizen experience.

Process building and non-building permit, planning and license applications, as well as associated fees and payments from one location.

- Conduct inspections, and view past permit information in real-time with the Permits Mobile app.
- Allow applicants to submit all applications online via the Citywide Portal. Implement mandatory input fields per application type.

citywide HUB

A simple way to get connected.

- Quickly integrate with APIs and data services.

Did you know? Our Implementation team will help you get started with all of our solutions. Guides, workshops and training courses are available if you want to learn more!

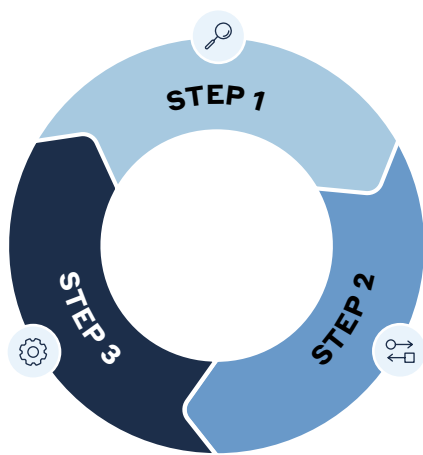

Advisory Services

Expert knowledge so you can rest easy.

Over 20 years of experience taking municipalities to the next level.

PSD Citywide Advisory Services better equip municipalities to manage their infrastructure and increase public sector financial confidence. Our team of expert Advisors follow best practices to analyze and implement tailored asset management plans, programs, corporate strategies and enhanced policies to help you reach your goals.

Goodbye guesswork. Get set up for success today.

1

Audit and Assess

- ✓ Review current asset management policies.
- ✓ Identify process and practice maturity gaps.
- ✓ Set target areas for improvement.

2

Strategy and Plan Development

- ✓ Engage staff with departmental training workshops.
- ✓ Develop a multi-year detailed strategy and roadmap.
- ✓ Establish targets for infrastructure services.

3

Operationalize Plan

- ✓ Outline data gaps, collection requirements and standards.
- ✓ Develop risk and Levels of Service (LoS) frameworks.
- ✓ Institutionalize asset management practice.

Trust in a team that will go above and beyond for you.

At PSD Citywide, we take pride in ensuring you and your team have everything you need for continued success. This includes the development of a risk analysis framework, full lifecycle management strategies, infrastructure needs assessments and forecasting. With PSD Citywide, you're never alone. You will be informed and engaged throughout the entire process of assessment, implementation and beyond so that you always stay on track.
